Excerpt: . . . to this branch of agricultural industry; but, on the other hand, the excise duty to which hops are subject, furnishes correct statistical information respecting them, which is a great desideratum in the other departments of agriculture, and which enables us to reduce these exaggerated pretensions to their true value, and to demonstrate the disadvantage of protecting duties, and high artificial prices to the growers of even the most highly protected article to be found in the agricultural tariff. 174. Not to weary the reader with the details of investigations, which have cost us much labour, we shall content ourselves with a general statement of the results. 175. The average annual value of the hop crop does not exceed one part in one hundred and forty of the average annual value of the total agricultural produce of the United Kingdom. 176. The average number of acres under hop culture, during the last thirty years, has not exceeded 47, 870, on which the average annual produce has been 6 cwt. 1 qr. 3 lbs. , and the average price 6. 19s. per cwt. 177. The extremes of produce during the period have been 1l cwt. 5lbs. and 1 cwt. 8lbs. , and it is a curious fact that they occurred in consecutive years. The extremes of price have been 27. the cwt. and 4. 4s. 178. The labour of the hop culture, exclusive of the picking, cannot be estimated as affording constant employment to more than...
