The catalog is intended to serve as your personal guide to the program for the forthcoming 1979-80 academic year. During the year, bulletins issued by the Program will list course scheduling and tuition information. New courses now being developed will also be introduced. About our Program The proliferation of new knowledge has made it increasingly difficult for professionals to keep pace with advances in today's fast-moving technology. The courses present relevant information in a ready-to-use form. They are designed for adults and take into consideration the individual differences among participants. Class size is intentionally limited to allow for flexibility of presentation and ample discussion of course content. We also wish to welcome new participants with the hope that you will find the educational experiences we offer beneficial to your continuing professional development.
